

Submitter: Derek Becker

On Behalf Of:

Committee: House Committee On Rules

Measure: SB1583

Members of the Committee,

This bill would remove, from school boards, the authority to determine what books and materials are appropriate for their students. This bill consolidates power in Salem. This bill encourages inappropriate materials in our schools. We are not about "banning books" , we are about providing age appropriate books and not allowing unlimited access to books that are not appropriate for children. In a simple statement, pornography is not acceptable in our schools.

Respectfully
