

Submitter: Daniel Hafkesbring  
On Behalf Of:  
Committee: Senate Committee On Rules  
Measure: HB4130

I am writing to strongly endorse HB 4130, which prohibits individuals involved in professional healthcare corporations from owning or controlling shares in, serving as directors or officers of, or managing both the professional corporation and a management services organization (MSO). As a nurse working in the operating room, I have witnessed firsthand the importance of maintaining the highest standards of integrity and independence in healthcare practices.

Allowing individuals to have dual roles in both the professional corporation and an MSO can lead to conflicts of interest and potentially compromise patient care. HB 4130 is crucial for protecting patients and ensuring that healthcare decisions are made solely in the best interest of the patient. As a dedicated healthcare professional, I urge you to support this bill to uphold the integrity of our healthcare system.

Thank you for considering my testimony in support of HB 4130.

Sincerely,  
Daniel Hafkesbring RN
