

Submitter: Tarah Patton
On Behalf Of:
Committee: Senate Committee On Rules
Measure: HB4026

I, Tarah Patton, located in North Plains, Oregon, oppose bill HB 4026 A and request that it be either rejected and/or edited to remove its retroactive nature. In its current written form, the optics are that this is a direct response and suppression of a measure that's already been legally entered onto North Plains May ballot by over 10% of North Plains voting residents.

If this is **not** in response to, and suppression of, the May vote in North Plains, then it should not be an issue halting this to revisit and remove its retroactive nature. If it **is** in direct response to the May vote in North Plains then I wholeheartedly oppose and reject this bill as an unconstitutional and undemocratic suppression of the votes in our town and request this bill be denied.
