SB 1583. NO!

- We are Not asking to "ban books"
- We want age-appropriate materials to be moderated by parents & local school boards. We want to keep indoctrination out.
- SB 1583 discriminates against parents rights & the rights of School Boards to have a say on curriculum & books.
- SB 1583 actually blocks parental rights to screen & monitor what their children are required & exposed to.
- SB 1583 prohibits & silences parents from protecting their kids against certain content that is not age appropriate including vulgar explicit words & pictures. These books are not even allowed to be read at School Board Meetings or in public settings.
- If the FCC, YouTube & social media refuse to allow content that's in Oregon's public school curriculum, then it should NOT be in our school books or in public schools libraries.
