

Submitter: Miller Dori
On Behalf Of:
Committee: House Committee On Rules
Measure: SB1583

Our current politicians and bureaucrats are destroying Oregon. Please don't destroy our children too, by trying to fix something that was never broken. Schools are not a place to manipulate the mind on what is wrong or right when it comes to things that are personal, and belong to the person themselves. Every individual has a right to make their own mind up without being manipulated.
