

Submitter: Jodi Steiner
On Behalf Of:
Committee: House Committee On Rules
Measure: SB1583

This bill would substitute the will of local school boards and the parents and voters that elected them, for that of the Legislature's and the Department of Education. I am extremely concerned that this will silence the voices of parents who rightfully object to obscene content in their libraries. Keep decision making for schools local. Keep school board members, accountable to the community that elects them. Stop relinquishing local decision making and responsibility, to unelected bureaucrats and government departments that aren't accountable to voters.
