Measure: SB1583

I totally support this legislation. Our local library and school district has experienced total disruption due to people who wish to ban books or put them in a separate location identifying them as "LGBTQ" books. We fought back and won with our library, but the same people managed to gain control of our school board with a campaign of lies and conspiracy theories fueled by "Moms for Liberty" influence. The passage of this legislation would be quite helpful in pushing back efforts to replace curriculum and library reading material that contains any reference to gay, trans or sexual identity. I urge you to vote yes for SB 1583.
