

Submitter: Gerald Jamieson

On Behalf Of:

Committee: House Committee On Rules

Measure: SB1583

Compassion for others should always be a factor in our decisions. There is a difference between discriminating out of intending to exclude others because they are not valued and having discernment as to what are appropriate reading materials are for our valuable children, regardless of race or gender. As a survivor of childhood sexual exploitation, I believe that sexually explicit materials should not be made available to children, as it contributes to sexual grooming ,so I am opposed to this bill. I am also opposed because it does not allow voters to weigh in on the matter.
