

Submitter: Deborah Ferrer
On Behalf Of:
Committee: House Committee On Rules
Measure: SB1583

Please pass SB 1583 WITHOUT the -6 amendment. We don't need a task force to study whether or not we should prohibit individuals and school boards from banning books based on their own bigoted ideas about what others should or shouldn't be reading. The task force amendment is simply a last ditch effort by the minority party that WANTS to be able to ban books that disagree with their personal ideology. The freedom to read from an unbiased selection of reading material should be the right every child in Oregon.
