

Submitter: Dee Burkey  
On Behalf Of:  
Committee: House Committee On Rules  
Measure: SB1583

There should not be books/instructional materials used in schools or libraries which is definitely pornographic and even against FCC rules to be shown on news programs on television.

This is not what our children should be taught in public schools. This kind of sex education is not preparing our children for what is needed when they graduate to go to college or what is important in working and getting jobs/employment in this country.. Education is learning to be good citizens and be able to work and become honest tax payers to help support an honest and good ethical government.
