Community Colleges Work for Oregon

- Offering high demand/high wage programs that address local workforce demands
- The affordable option for Oregon students
- Flexible learning for working adults
- Implementing innovative programs like applied baccalaureates and the community college RN to BSN
- Removing barriers to make higher education a reality for all students

Key Takeaways

- **Statewide community college FTE enrollment was up 7 percent for Fall 2024 and headcount enrollment was up 4.3 percent**
- **More students are enrolling in CTE and short-term certificate programs which lead to good careers and bolster the Oregon economy**
- **Community colleges need a budget increase of \$120m (\$920m) to cover a 15.7 percent gap in biennial cost increases**
- **Community colleges are adapting to serve evolving student needs (including mental health, food and housing insecurity)**
- **State support is critical to maintaining access and fostering student success**
