BACKGROUND:

The Public Employees Retirement System (PERS) provides retirement benefits for state agencies and approximately 900 units of local government. PERS is overseen by a five-member board that appoints an executive director to manage the agency's daily operations, including the management of benefits for more than 393,000 active, inactive, and retired members and beneficiaries. PERS members are in one of three plans, depending on when they first became a member. The three plans are: Tier One, Tier Two, and the Oregon Public Service Retirement Plan (OPSRP). PERS members who work in positions that meet the definitions for "police officer" and "firefighter" are eligible for special benefit provisions such as retiring at an earlier age and calculating their retirement benefit with a higher statutory factor.

Senate Bill 588 provides that "post-traumatic stress disorder" suffered by a police officer or firefighter is an injury or disease sustained in the actual performance of duties for purposes of specified benefits under PERS in certain circumstances.
