HB 2127 STAFF MEASURE SUMMARY

Sections 1 to 7 apply to franchises where the franchisor and the franchisee enter into an agreement or renew an agreement after the Bill's effective date.

ISSUES DISCUSSED:

EFFECT OF AMENDMENT:

No amendment.

BACKGROUND:

Motor vehicle franchisees and manufacturer, distributor, and importer franchisors enter into agreements to work together to sell and service motor vehicles locally to the retail customer. The cost of parts and time needed to make a repair or replacement can be a point of disagreement between the parties. Other points of disagreement can be about the amenities required by a franchisor to be offered by a franchisee.

HB 2127 changes the laws that govern franchise agreements between car dealers and manufacturers, distributors, and importers. The measure amends what actions a manufacturer, distributor, or importer can take within the business relationship. It prohibits coercion to install electronic charging stations or changing business plans or systems unfairly. The measure also creates requirements for pre-delivery and warranty work, compensation, and reimbursement. It declares when a franchisor must indemnify a franchisee or former franchisee.
