# HB 4082:
# Building a Cohesive, Integrated System

**✅ Why It Matters**
- <u>Youth thrive</u> when education, community organizations, families, and public agencies <u>work together</u>.
- <u>A fragmented system places unsustainable burdens on educators while underutilizing community resources</u>.
- <u>We must elevate agencies</u> outside the school system to an equal role in raising and educating the next generation.

**Key Challenge:**
🚨 Without <u>long-term investments</u> and <u>integrated inclusive strategies</u>, we miss the opportunity to fully support youth development and change the trajectory of Oregon future.

**Quote:**
"Education is our most important national investment. <u>Every citizen has a vital, personal stake in this investment</u>."
— **Jimmy Carter**
