

Please Don't Leave Kids Behind

Many Counties have **"bearly"** any programs for homeless youth.

14 of 36 Counties have no wrap around supports.

But we know that being homeless as a youth is the **#1 indicator of long term chronic adult homelessness.**

HB3079 Fixes this gap & SAVES tens of millions in the long term!

Oregon won't solve its homeless crisis as long as it only invests in adult programs.

Youth are **THE** pipeline into adult chronic homelessness

Investing in Kids = 85% success rate

Especially in a tough budget environment, this investment is more and more critical!

HB3079 is the best "bang for the buck" in homeless prevention.
