Re: DAS Committee Follow-Up from General Government February 27, 2025

Co-Chair Gorsek, Co-Chair Smith, members of the committee,

Thank you for having the Department of Administrative Services in today's subcommittee to talk about the OregonBuys program. We are exceptionally proud of this work and happy to share this additional information with you.

## What does the green "other line" represent and who pays that?

On the VCAF graphic (Slide 16, DAS- OregonBuys Presentation), "Other" is a catch-all category for purchasers of goods and services from statewide price agreements that are not "Authorized Purchasers (APs)" or that we are not able to identify as APs. For example, if the vendor does not properly identify the purchaser on their report to DAS or if the purchasing entity is not a state agency or active OrCPP member, they are included in the "Other" category.

What are the ongoing fees for Periscope? Are these fees offset by cost savings? There is no annual fee to Periscope; fees are calculated as a percentage of VCAF spend, with a maximum cap each year. The contract is under renegotiation at this time, and once complete, we can provide you with the maximum annual fees.

The fees are not necessarily and directly offset by cost savings, however there are many benefits in utilizing the system. When agencies/OrCPP purchase off our statewide price agreements they are realizing cost savings as prices reflect volume discounts. They also benefit from the time savings of using a purchasing agreement that has already been competitively bid, rather than conducting those processes themselves. The other savings are as demonstrated in automating processes that were previously paper based.

A list of state agencies which have implemented OregonBuys can be found <u>here</u> (hyperlink on Slide 24). Also attached is a list of cities and counties that participate in the Oregon Cooperative Procurement Program (OrCPP), whom are able to utilize OregonBuys.

Thank you,

-Meliah Masiba DAS Legislative Director
