### **BACKGROUND:**

The County Fair Account was established in 1969 and provides funding for county fairgrounds located throughout the state. Oregon Business Development Department (OBDD) has provided grants for capital improvement projects to county fairground facilities in past legislative sessions, including \$10 million in lottery bond funding between 2019 and 2021. Horse racing has been an activity at fairs in Oregon since the 1800s, with different variations taking place over the years. Established in 1933, the Oregon Racing Commission regulates the pari-mutuel industry in the state, which include horse racing and wagering.

Currently, the County Fair Account is allocated one percent of net proceeds from the Oregon State Lottery, not to exceed \$1.53 million annually. House Bill 3101 removes this annual limit. It changes the allocation to the County Fair Account to eight-tenths of one percent. It establishes the Horse Racing Account and allocates the remaining two-tenths of one percent to the Horse Racing Account. The measure also appropriates \$250,000 from the General Fund for OBDD to develop a county fairground capital construction master plan.
