BACKGROUND:

Workers' compensation insurance pays for workers' medical treatment and lost wages on accepted claims when workers suffer work-related injuries or illnesses. Oregon employers that have one or more workers, must carry workers' compensation insurance or be self-insured. The Workers' Compensation Division (division) administers and regulates the laws and rules surrounding workers' compensation in Oregon. The division is a part of the Department of Consumer and Business Services. The Workers' Compensation Board is composed of five members and is charged with resolving workers' compensation disputes.

Oregon workers' compensation law defines "average weekly wage" for purposes of temporary total disability as the average weekly wage of workers in covered employment in Oregon, as determined by the Oregon Employment Department (OED), for the last quarter of the calendar year preceding the fiscal year that compensation is paid and as computed by OED by May 15th of each year. As of May 16, 2024 the average weekly
