

CRITICAL ENERGY INFRASTRUCTURE [CEI] HUB

Nikki Mandell, on behalf of the CEI Hub Task Force
and a broad coalition of concerned neighborhood and community groups
nikki.mandell@gmail.com

PUBLIC EDUCATION

- **Rumble on the River public forums** with panels of experts, co-sponsored by 40 orgs
- **Presentations to Portland Neighborhood Associations and community groups**
- **Meetings and presentations to statewide organizations**
- **Websites**
- **Documentaries**
- **Social media**
- **Radio**
- **Public gallery**
- **Billboards**
- **Walking tours**
- **Community safety petition**

CEI HUB

From Dangers

To Policy Action

HB 3450, HB 2949,
HB 2152, HB 2151

Old, seismically unfit fuel storage tanks

Fuel Tank Seismic Stability Program (SB 1567, 2022)

Communities unprepared for a CEI Hub disaster

Fuels for Disaster Response (HB 2152)

Geographically diverse fueling stations

Mitigation Fund (HB 2151)

Expand Allowable Uses

Public & taxpayers liable for costs due to private facility failure

Financial responsibility borne by the business, not taxpayers

Study viability (HB 2949 & HB 3450)

Required by EPA of all Underground Storage Tanks [USTs]

States responsible for Above Ground Tanks [ASTs]

90%+ of OR's fuels concentrated in super high-risk location

Safe, Resilient Storage amidst Changing Fuel Needs (HB 3450)

Replace piecemeal actions with wholistic, long-term solution

Engage stakeholders, experts, affected communities, govts.
