**EFFECT OF AMENDMENT:**

No amendment.

**BACKGROUND:**

According to the most recent data from the U.S. Department of Veterans Affairs, Oregon's veteran population was 266,690 in 2023, and at least 81,500 of those veterans received disability compensation from the VA that same fiscal year.

The State of Oregon's Construction Contractors Board adopted a list of model features for accessible homes as required by ORS 701.547. This includes accessibility resources such as automatic doors, grab bars, motion detectors, ramps, sliding shelves, special lighting, and other resources for residences of people with disabilities.
