BACKGROUND:

<u>House Bill 2235</u> (2023) directed the Oregon Health Authority (OHA) to establish a workgroup to study the major barriers to workforce recruitment and retention in the publicly financed behavioral health system in Oregon. In January 2025, the workgroup issued recommendation for recruitment, retention, administrative burden, reimbursement rates and pay, reducing workloads and burnout, supporting equity, and workforce development (<u>Stabilizing Oregon's' Public Behavioral Health System</u>, 2025).

Senate Bill 142 -1 directs HECC and OHA to administer grant programs to support the behavioral health workforce, outlines reporting requirements for grantees and agencies, and appropriates General Fund monies for the 2025-2027 biennium to support the grant programs.
