

HB 3910 -1 STAFF MEASURE SUMMARY

House Committee On Agriculture, Land Use, Natural Resources, and Water

Prepared By: Anna Glueder, LPRO Analyst

Meeting Dates: 3/17

WHAT THE MEASURE DOES:

The measure expands the justifications for a domestic water supply district (district) to exercise sanitary district powers by changing one of the original requirements for the district to adopt a resolution declaring that both the health of district residents 'and' the general public interest require watershed water quality protection to a revised requirement in which either the health of district residents 'or' the general public interest suffices. The measure declares an emergency and takes effect on its passage.

FISCAL: May have fiscal impact, but no statement yet issued

REVENUE: May have revenue impact, but no statement yet issued

ISSUES DISCUSSED:

EFFECT OF AMENDMENT:

-1 The amendment changes additional conditional statements to broaden the justifications for a domestic water supply district to exercise sanitary district powers.

FISCAL: May have fiscal impact, but no statement yet issued

REVENUE: May have revenue impact, but no statement yet issued

BACKGROUND:

In Oregon, a domestic water supply district is a local government entity established to provide water for domestic use to district residents, and in some cases, to individuals outside the district. In contrast, a sanitary district is a local government entity responsible for managing and providing sanitary services, including sewage and drainage disposal. Under certain conditions, a domestic water supply district may exercise the powers of a sanitary district when the associated watershed meets specific criteria.
