BACKGROUND:

House Bill 4092 (2024) directed the Oregon Health Authority (OHA) to conduct a study with the Oregon Council for Behavioral Health in order to evaluate existing statutes, administrative rules, and contracts related to local behavioral health programs, identify contradictions and/or redundancies in the statutes, and make recommendations to support reducing the administrative burden on local behavioral health programs. A report on preliminary findings was submitted to the Legislative Assembly in December of 2024 that included the recommendation that terms related to funding-dependent treatment services should be streamlined and applied consistently throughout ORS chapters 414 and 430.

House Bill 2202 directs the Oregon Health Authority to study certain provisions of the Oregon Revises Statutes (ORS) chapters 414 and 430 for outdated language and to submit findings to the interim committees of the Legislative Assembly related to health by September 15, 2026.
