#### **BACKGROUND:**

The Public Employees Retirement System (PERS) provides retirement benefits for state agencies and approximately 900 units of local government. PERS is overseen by a five-member board that appoints an executive director to manage the agency's daily operations, including the management of benefits for more than 393,000 active, inactive, and retired members and beneficiaries.

Oregon law specifies retirement age for public employees and the amount of pension based on retirees "final average salary." "Salary" is defined in law and includes remuneration paid an active member, including remuneration in the form of living quarters, to the extent the remuneration is taxable income under Oregon law. The definition for salary goes on to specify other amounts of payments or contributions to a member that are included or excluded. For example, retirement bonus or reimbursed travel expenses are excluded from the definition of salary. However, payments made into a deferred compensation plan at the election of the employee are included in the definition of salary.

In 2023, the Legislative Assembly enacted Senate Bill 128. SB 128 required that a housing allowance paid to a PERS member who is a prison chaplain be treated as if it were includable in a member's taxable income under Oregon law for purposes of determining salary.

Senate Bill 757 directs the Public Employees Retirement Board to study the treatment of the salary of chaplains under the Public Employees Retirement System.
