BACKGROUND:

The Department of Human Services (ODHS), through the Office of Developmental Disability Services (ODDS), manages home and community-based services (HCBS) for individuals with intellectual and developmental disabilities (IDD) under [Medicaid's Community First Choice](#) option, or "K Plan," as provided by [sections 1915\(c\) and 1915\(k\) of the federal Social Security Act](#) and [section 2401 of the Affordable Care Act](#). Oregon is one of five states to provide these services to individuals with IDD under its state Medicaid plan. Under the [K Plan](#), individuals with IDD whose needs would otherwise qualify them for an institutional level of care are instead able to receive services from local providers in their homes and communities. Depending on the services provided, providers must either be licensed, endorsed, or certified by ODHS or the Oregon Health Authority in order to provide HCBS under the state Medicaid plan. Providers of HCBS for individuals with IDD include adult foster care, group homes for adults and children, adult day centers, and in-home care providers, which are regulated by ODHS under [OAR chapter 411](#).

The Inspector General of the U.S. Department of Health and Human Services is [authorized](#) by [sections 1128 and 1156](#) of the Social Security Act to temporarily or permanently exclude certain individuals or entities from participating in federally funded health programs, which applies to all programs funded through Medicaid. Generally, this applies to individuals who have been convicted of certain crimes or committed other offenses relating to abuse, fraud, or making false statements. The Inspector General maintains a [List of Excluded](#)

[Individuals/Entities](#) to inform the public about exclusion decisions.
