Data Source: Table B.9, March 2025 Oregon Economic and Revenue Forecast

Impact Explanation:

According to the March 2025 Oregon Economic and Revenue Forecast, lottery net proceeds are \$1,922.0 million in the 2025-27 biennium, \$2,072.0 million in the 2027-29 biennium, and \$2,228.6 million in the 2029-31 biennium. Under this measure, one percent of these net proceeds will be distributions to the County Fair Account in each biennium. The increase in distributions to the account under this measure will leave the legislature with less lottery net proceeds available for other discretionary allocations.
