#### **WHAT THE MEASURE DOES:**

The measure requires dealers who sell beverage containers in Oregon to collect a five-cent surcharge on each container for wildfire prevention and response; requires retaliatory tax revenue collected to be deposit in the State Fire Marshal Fund for wildfire prevention and response; transfers one-half percent of General Fund appropriations per biennium to a fund for wildfire prevention and response; and transfers 50 percent of the amount held in the Oregon Rainy Day Fund to State Fire Marshal Fund for wildfire prevention and response. It makes certain changes related to the forest products harvest tax, minimum assessments and surcharges, zones for fire protection in certain areas, and the formation of rural fire protection districts and requires the Legislative Assembly to make moneys available to the State Forestry Department and the Department of the State Fire Marshal to repay loans from the State Treasurer for wildfire suppression costs.

Detailed summary:

#### **BEVERAGE CONTAINER SURCHARGE**

Requires dealers who sell beverage containers in Oregon to collect a five-cent surcharge on each container and, at least once per quarter, transfer the full amount of surcharges collected to the Oregon Department of the State Fire Marshal (OSFM). Requires OSFM to deposit all amounts received in the State Fire Marshal Fund for wildfire prevention and response. Requires the Oregon Liquor and Cannabis Commission, in consultation with OSFM, to adopt rules related to the collection and use of funds collected from beverage containers.

#### **INSURANCE RETALIATORY TAX**

Requires the Department of Consumer and Business Services (DCBS), once per year, to determine the aggregate amount of revenue collected by the DCBS pursuant to the retaliatory tax imposed on insurers and transfer it to OSFM for deposit in the State Fire Marshal Fund for wildfire prevention and response.

#### **ENDING BALANCE**

Requires, immediately after the time of each transfer to the Oregon Rainy Day Fund, one-half percent of the amount of General Fund appropriations for the preceding biennium to be transferred from the General Fund to the State Fire Marshal Fund for wildfire prevention and response.

#### **OREGON RAINY DAY FUND**

Transfers 50 percent of the amount held in the Oregon Rainy Day Fund to State Fire Marshal Fund for wildfire prevention and response.

#### **FOREST PRODUCTS HARVEST TAX FOR WILDFIRE MITIGATION AND SUPPRESSION**

Changes the forest products harvest tax upon taxpayers from 62.5 to 100 cents per thousand feet, board measure, for the payment of benefits related to fire suppression and requires the rate to be adjusted by a certain percentage. Applies to calendar years beginning on or after January 1, 2026. Removes and adds definitions in statute related to the forest products harvest tax (ORS 321.005), applicable on or after January 1, 2026.

Removes language around the forest patrol assessments levied and assessed against grazing lands that are not owned by public agencies. Specifies that budgeted amounts for timberland that are not expended may be carried forward as a credit to the forest patrol assessment rate for the ensuing year.

**MINIMUM ASSESSMENT AND SURCHARGE**

Specifies that a surcharge on an unencumbered balance of Oregon Forest Land Protection Fund be levied and assessed annually and changes the rate the amount is levied and assessed from \$47.50 to \$20 to defray the increased cost of fire suppression on forestland that is caused by the existence of the improvements. Changes the minimum cost from \$18.75 to \$58 and adjusted annually for inflation, for purposes of making the levy and assessment of costs against forestland, to provide fire protection or suppression for any lot or parcel of real property separately assessed for ad valorem taxes or other taxes, on the current assessment roll. Specifies that applications for combined lots for assessments of costs against forestland be made to the State Forester.

Allows, rather than requires, the State Forester to charge a fee of \$25 per combined lot and paid to the State Forester at the time of application for the combined lot, and for each subsequent application. Adds requirement for approved applications that the forestland owner needs to reapply every five years.

**ZONING OF CERTAIN LANDS**

Removes zone 1 and 2 classifications that the governing body of each county may, in cooperation with the State Board of Forestry can make, and establishes that zones be composed of forest, range, grass, or undeveloped lands, or any of such lands intermingled with grazing and agricultural lands. **BACKGROUND:**

During the 2021 legislative session, the Legislative Assembly enacted Senate Bill 762 (2021), a major initiative to modernize and improve wildfire preparedness that contained three key strategies: creating fire-adapted communities, increasing the resiliency of Oregon's landscapes, and developing a safe and effective response to fire. Senate Bill 80 (2023) modified various provisions of Senate Bill 762 (2021) and establish a Wildfire Home Preparedness Program.

The Oregon Department of Forestry and the Oregon State Fire Marshal convened a 35-member wildfire funding workgroup, working with the Governor's Wildfire Programs Advisory Council, in 2024 to develop solutions for creating sustainable funding sources for use in mitigating and suppressing wildfires in Oregon. The wildfire funding recommendations included in this Act are a result of the workgroup's work.
