OREGON RACING
COMMISSION

PROBLEM: RIGHT NOW,
OREGON IS LOSING MONEY
ON EVERY RACING LICENSE.

HERE'S HOW WE FIX THIS.

How much are we charging and what is the max we can charge under statute?

Fees are significantly less than those in our neighbor states.

Currently, we charge \$20 a year with a maximum of all licenses at \$30 per year by statute.

Costs are more than the fees

Our solution

Provide a tiered system to allow for different classes of licenses like California and Washington. These fees will be from \$25.00 to \$125.00 annually.

- Maximum annual licensing fee will be set in statute at \$150.

Additional fees for online wagering

- Increase the Online Wagering daily fees by \$25.00 (25%).

Currently we increase fees automatically on handle at 2.5% per year and we charge a daily licensing fee of \$200.00.
