

HB 2152 -1, -2 STAFF MEASURE SUMMARY

House Committee On Emergency Management, General Government, and Veterans

Prepared By: Beverly Anderson, LPRO Analyst

Sub-Referral To: Joint Committee On Ways and Means

Meeting Dates: 2/27, 4/8

WHAT THE MEASURE DOES:

The measure requires the Oregon Department of Energy to develop the Statewide Geographic Diversity of Fueling Stations for Disaster Reserves Priority Action Plan.

Detailed Summary

- Requires the department to work with the Department of Environmental Quality and the Department of Land Conservation and Development to develop the action plan.
- Requires the plan be based on the 2024 Oregon Energy Security Plan; outlines the report requirements.
- Allows the department to take actions necessary to implement the plan; review and update the plan once every five years.
- Requires the department to submit the plan to the Legislature no later than September 15, 2026.
- Take effect on the 91st day following adjournment sine die.

Fiscal impact -1: Fiscal impact issued

Revenue impact -1: No revenue impact

Fiscal impact -2: TBD

Revenue impact -2: No revenue impact

ISSUES DISCUSSED:

- Concerns about the soils the CEI is built on and the risk of liquefaction during an earthquake
- Interest in including other agencies in the planning process, including the Oregon Department of Emergency Management and the State Resilience Officer
- Questions on if nuclear energy should be included in the plan

EFFECT OF AMENDMENT:

-1

- Requires the Oregon Department of Energy to also work with the Oregon Department of Emergency Management, the State Fire Marshal, and the State Resilience officer to develop the plan.
- Requires the department to submit the plan to the interim committees of the Legislative Assembly related to emergency no later than September 15, 2026.

-2 Replaces measure.

- Requires the Oregon Department of Energy to work with the Department of Environmental Quality, the Department of Land Conservation and Development, and the Labor Education and Research Center at the University of Oregon on the plan.
- Requires the plan to be based on the 2024 Oregon Energy Security Plan; outlines the report requirements, including strategies and polices to maintain a skilled and trained fuel storage emergency response, operation, maintenance, and construction workforce.
- Requires a workforce transition plan for fuel storage workers; lists plan requirements.

HB 2152 -1, -2 STAFF MEASURE SUMMARY

- Requires formal consultation with federally recognized Indian tribes when selecting new or expanded fuel storage.
- Requires plan consider negative impacts on the environmental health of communities in areas identified for new or expanded fuel storage capacity; lists potential impacts.
- Allows the department to take actions necessary to implement the plan; review and update the plan once every five years.

BACKGROUND:

Senate Bill 1567 (2022) required the Oregon Department of Energy develop the [Oregon Energy Security Plan](#) to evaluate the state's ability to recover quickly from physical threats, including a magnitude 9.0 Cascadia Subduction Zone earthquake and cybersecurity threats. The measure also required the department to make recommendations for increasing the geographic diversity of fuel storage capacity throughout this state and the [Diversification of Oregon's Liquid Fuel Storage](#) geospatial screening tool was developed to identify and prioritize alternative sites for fuel storage in Oregon.
