

On March 26, 2025, Representative Nelson asked a clarifying question about the Medicaid rates paid to nursing facilities in Oregon as compared to other states. Below are Medicaid and Private Pay rates for each nursing facility in Oregon in SFY 2022, sorted by county. These are daily rates. The Medicaid Basic Rate is for a resident who requires daily, intermittent licensed nurse observation and continuous nursing care and has a physician's order for nursing facility care. The Medicaid Complex Rate is a complex medical add-on (in addition to the basic rate) when the resident requires one or more of the treatments, procedures, and services.
