# Budget Starting Point

---

- The starting point for the LFO recommendations is the 2025-27 current service level.
- During work session, LFO will review any change, positive or negative, to the current service level as a discrete policy option package:
  - 070 package – revenue shortfall (i.e., eliminates budget authority unsupported by a revenue source).
  - 08X series packages – reflects ongoing interim activities of the Emergency Board/Special Sessions/Legislature.
  - 09X series packages – CFO packages added in the Governor's budget (e.g., Pkg. 099 Microsoft 365 Consolidation).
  - 100+ series packages – agency requested and recommended by LFO (can be modified as part of recommendation).
  - 80X series packages – LFO added packages, including agency-specific adjustments or statewide adjustments.
  - Assessment and rate changes will come at the end of session.
- There can be revenue-only policy packages or packages that adjust beginning balance for Other Funds.
- A primary budget measure can, but rarely has, a revenue impact.

## Summary of Revenue Changes

The Department of Administrative Services' (DAS) Other Funds operating revenue comes primarily through two sources: fees billed to state agencies for direct services and assessments to state agencies for indirect services. Fees for services are billed to agencies based on usage. Assessments are generally calculated based on budgeted full-time equivalent (FTE) positions and recovered through the State Government Service Charge line item in agency budgets. Federal Funds within the Chief Financial Office come from American Rescue Plan Act (ARPA) revenues. Additionally, agencies benefiting from pension obligation bonds are assessed their share of debt service and debt management costs.

DAS will update its beginning fund balances based on the Department's monthly budget status reported as of March 2023, month-end close and reconcile assessments and charges for services revenue accounts to align with expenditure changes in the DAS budget.
