#### **BACKGROUND:**

*This summary has not been adopted or officially endorsed by action of the committee.*

The Public Employees Retirement System (PERS) provides retirement benefits for state agencies and approximately 900 units of local government. PERS is overseen by a five-member board that appoints an executive director to manage the agency's daily operations, including the management of benefits for more than 393,000 active, inactive, and retired members and beneficiaries. PERS members are in one of three plans, depending on when they first became a member. The three plans are Tier One, Tier Two, and the Oregon Public Service Retirement Plan. An Individual Account Program (IAP) is an account-based benefit for all Tier One, Tier Two, and OPSRP members who have worked in a qualifying position since January 1, 2004. An IAP receives funding through employer contributions.
