##### BACKGROUND:

In 2022, the Legislative Assembly passed [House Bill 4117](#), which established the Tax Infrastructure Grant Program and appropriated \$4 million to the Oregon Department of Human Services (ODHS) for the remainder of that biennium to provide grants to culturally specific organizations, Tribal governments, and under-resourced rural community service organizations that assisted low-income households in filing tax returns. According to ODHS administrative rules, the objective of the program is to provide free income tax services and education about income tax credits and other tax benefits to low-income households ([OAR 461-194-0000](#)).

According to a report from the Legislative Revenue Office (LRO), most of the grant funding supports tax preparation organizations associated with the [Internal Revenue Service's Volunteer Income Tax Assistance \(VITA\)](#) sites ([LRO 2024, 17](#)). About 10,000 personal income tax returns were filed from grant supported organizations in 2023, increasing to about 12,600 returns for the spring 2024 tax filing season. Approximately 17% of those returns claimed the Earned Income Tax Credit (EITC), and about 15% of the taxpayers who filed through grant-supported organizations were identified as new or lapsed filers. The ODHS Tax Infrastructure Program report for 2024 provides an overview of the program, including information on taxpayers who participated in the program, the percentage of returns prepared by program grantees that included the EITC, and other program details ([ODHS 2024](#)).
