#### BACKGROUND:

This miscellaneous bill has changes related to multiple program areas.

In 2019 the annual deadline for filing returns for the Small Tract Forestland program was changed from January 15th to April 15th, shortening the time available for DOR to calculate balances in the Eastern and Western Oregon Timber Severance Funds. HB 2339 extends the deadline for calculation of fund balances and distribution from the timber severance funds from May to June each year.

Currently the Department of Revenue has data sharing agreements with the Oregon Liquor and Cannabis Commission (OLCC) and the Oregon Health Authority (OHA) for administration of the marijuana and psilocybin tax programs. HB 2339 expands the purposes for which OLCC and OHA can share tax data and allowing DOR to use that data for compliance purposes for income taxes and the Corporate Activity Tax.

Other changes in the bill include repeal of several requirements for DOR to report information or to make recommendations for changes to tax laws, alignment of S-Corporation use of Agricultural Employer Overtime Tax Credit with current practice of passing the credit through to S-Corporation owners, and including foreign earned income excluded from Adjusted Gross Income to calculated income used to qualify for the Oregon Kids Credit.
