# **BACKGROUND:**

House Bill 2345 (2009) created the impaired health professional program in Oregon as a consolidated statewide program to assist health care providers with substance use or mental health disorders so they may continue to safely serve patients. Also known as the Health Professionals' Services Program (HPSP), the program has four participating health boards: the Oregon Medical Board, the Oregon State Board of Nursing, the Oregon Board of Dentistry, and the Oregon Board of Pharmacy. HPSP was administered by the Oregon Health Authority from 2010 to 2017. In 2016, the Legislative Assembly passed House Bill 4016, permitting health professional licensing boards to contract together to establish an impaired health professional program for licensees, leading to the current version that is operated by Uprise Health.

House Bill 3043 makes changes to the impaired health professional program, including allowing health professional licensing boards to impose a \$25 fee on licensees to provide financial support for the program.
