The Department of Human Services (DHS) supports children, families, seniors, people with disabilities, and individuals with intellectual/developmental disabilities by providing a range of services through 170 field offices and many community partners. The agency's mission is to help Oregonians in their own communities achieve safety, well-being, and independence through services that protect, empower, respect choice, and preserve dignity.

The LFO recommended total funds budget for the Department of Human Services is \$22,974,972,612, an increase of 15.7% compared to the 2023-25 legislatively approved budget (LAB) and 2.6% above the 2025-27 current service level (CSL). The recommended General Fund budget represents a 21.8% increase from the 2023-25 LAB and a 1.05% increase from the 2025-27 CSL. Attached are the recommendations from the Legislative Fiscal Office for the Department of Human Services.

Agency Overview

Key Investments. The recommended budget makes General Fund investments in a few key areas, namely provider reimbursement rates, program enhancements, and operational infrastructure. Investments in each of these areas is discussed below.

Provider Rates. To maintain quality of care and access to services for vulnerable individuals, the recommended budget adds \$75 million General Fund to the current service level (CSL) budget to increase Medicaid provider reimbursement rates for long-term services and supports funded by the Aging and People with Disabilities (APD) and Intellectual/Developmental Disabilities (I/DD) programs, as well as \$2.5 million General Fund to increase payments for the Independent Living Program administered by Child Welfare. It should also be noted that the CSL budget includes a 6% rate increase for Behavioral Rehabilitation Services, and a 11.3% rate increase for Nursing Facility daily rates.

The recommended rate increases for APD and I/DD, as well as the updated rate payment methodologies are intended to increase direct care worker wages and increase transparency in payment rates. In general, the LFO recommendation provides larger rate increases for services and provider types that have fallen behind, and smaller increases for providers that have fared better in recent years regarding payment rates.

Program Enhancements. The recommended budget makes several strategic investments aimed at enhancing program service delivery and outcomes. It adds \$19.7 million General Fund to the CSL budget to increase access to youth homelessness prevention and intervention services, and \$7 million General Fund to broaden the reach of evidence-based services designed to prevent child welfare involvement. The CSL budget includes an increase of \$56.9 million General Fund to launch a new service delivery model called Agency with Choice in the APD and I/DD programs, in accordance with HB 4129 (2024), SB 521 (2024), and SB 104 (2023).

Operational Infrastructure and Capability. To improve the agency's operational infrastructure and capacity, the recommended budget adds \$2.2 million General Fund and six positions (4.50 FTE) for the agency's mainframe modernization project, \$1.7 million General Fund for security contracts to increase worker and client safety in DHS field offices, and \$2.8 million General Fund and 33 positions (21.27 FTE) for more timely inspections of newly licensed community based care facilities and those that experience a change of ownership.

Other Agency Budget Adjustments. Several recommended budget adjustments affect multiple programs within the agency, including changes to services and supplies; routine modifications based on updated caseload forecasts and expenditure data; updates to the Federal Medical Assistance Percentage (FMAP), and positions transfers between programs. These are described below.

Current Service Level Reductions. The LFO recommendation includes \$130 million of General Fund savings resulting from reductions to the current service level budget. This includes \$37.6 million in reductions to services and supplies, IT hardware and software purchases, and postage and handling; \$43.4 million in reductions to program and training budgets, and \$48 million in one-time fund shifts. Also included in the LFO recommendation is the elimination of 10 positions that have been vacant for more than 12 months. Most of the DHS program budgets include one or more of these types of reductions. In the attached work sheets, CSL reductions are found in Pkg 90 (GB Analyst Adjustment)

and in Pkg 801 (LFO Analyst Adjustment). The package 90 reductions were included in the Governor's Budget.

Federal Medical Assistance Percentage (FMAP). The FMAP is computed annually from a formula that considers the average per capita income of the state relative to the national average. Between Fall 2024 and Spring 2025 the FMAP rate declined by 0.29% resulting in General Fund costs of \$31.5 million across all affected programs.

Caseload/Cost Per Case Adjustments. The recommended budget adjusts for the Fall 2024 and Spring 2025 caseload forecasts, as well as updates to cost per case assumptions based on a comparison of projected to actual expenditures. These adjustments are included in the Fall 2024 Reshoot and Spring 2025 Reshoot packages (Pkg 95 and Pkg 809).

Position Transfers. When the Oregon Eligibility Partnership (OEP) budget structure was created, numerous positions were shifted from Self Sufficiency Programs (SSP), APD, and I/DD. Over the course of the biennium, program managers have been sorting out the specific individuals that should move to OEP, which has necessitated a series of technical adjustments to transfer positions between the programs. These changes generally have a net zero budget impact. These adjustments are included in the Fall 2024 Reshoot and Spring 2025 Reshoot packages (Pkg 95 and Pkg 809).

Program Budget Details

Self Sufficiency Programs. The LFO recommended total funds budget for Self Sufficiency Programs (SSP) is 4.7% below the 2023-25 legislatively approved budget and 1% above the 2025-27 current service level (CSL). The General Fund Budget is 10% below 2023-25, which largely reflects the proposed one-time use of federal Temporary Assistance to Needy Families (TANF) Block Grant dollars in lieu of General Fund for qualified personal services costs.

Includes several technical adjustments that net to zero on an agency wide basis.

Pkg 108: SNAP Elderly Simplified App - Increases General Fund by \$104,838 and Federal Funds expenditure limitation by \$104,838 and provides one position (0.75 FTE) to implement the SNAP elderly simplified application project, a federal option states can use to streamline the SNAP application process for older adults and people with disabilities.

Budget Notes

#1 Budget Note: Safety and Regulatory Oversight

The Department of Human Services is directed to use the funds associated with Policy Option Package 101 to support the following efforts: (a) Ensure that applications for residential facilities and adult foster homes include proposed policies that demonstrate the prospective provider is prepared to respond to emergencies and support residents with person-centered service delivery; (b) Ensure all providers are inspected within 120 days after their initial licenses are issued or after a change of ownership, and collaborate with providers to address any systemic non-compliance issues identified during those inspections; and, (c) Strengthen

memory care facility endorsement requirements to ensure providers meet the specialized needs of residents receiving memory care services, including staff and administrator training, plans for elopement notification and resident transfer, and procedures for emergency evacuation and facility closures.

#2 Budget Note: Wage Transparency

The Department of Human Services is directed to collect data from assisted living facilities, residential care facilities, memory care communities, adult foster homes, and In-Home Care agencies that hold Medicaid contracts with the State of Oregon and serve a material number of Medicaid beneficiaries. The specific information to be collected is the average hourly base pay of direct caregivers as of June 30, 2025, and August 30, 2026. DHS shall compile and summarize this data by care setting and by the state's minimum wage regions in a report to be submitted to the Joint Committee on Ways and Means Subcommittee on Human Services by March 1, 2027. All data provided by community-based care providers and included in the report must be deidentified.

#3 Budget Note: APD Adult Foster Home Rate Methodology

On January 1, 2026, the Department of Human Services will implement a restructured rate methodology for payments to APD adult foster home providers, following consultation with impacted providers. This new methodology must include adoption of an acuity-based payment model designed to reduce reliance on exceptional payments. The model and associated rates must also require adult foster home providers to meet minimum thresholds for additional staff hours and be within the appropriated funding.

#4 Budget Note: Residential Care Facility Rate Methodology

On January 1, 2026, the Department of Human Services will implement a restructured rate methodology for payments to standard licensed residential care facility providers, following consultation with impacted providers. The restructured Medicaid rates must be (a) based on individual assessments, (b) reflective of the continuum of need that translates into varying intensity of supports for an individual receiving care, and (c) within the appropriated funding.

LFO Recommendation:

The Legislative Fiscal Office recommends approval of the proposed 2025-27 Key Performance Measures and targets. This includes approval of 11 new KPMs and deletion of eight existing KPMs. The new KPMs improve on existing KPMs that are proposed for deletion by focusing on factors within the agency's control and add new metrics for the Oregon Eligibility Partnership programs which was newly established in 2023. In addition LFO recommends modifications to several KPM targets, including KPMs 11, 15, and 19.

SubCommittee Action:
