BACKGROUND:

In 2015, the Legislative Assembly passed Senate Bill 469 updating Oregon's nurse staffing laws, including requiring hospitals to establish hospital nurse staffing committees to develop and approve hospital nurse staffing plans. The measure provided factors for hospital nurse staffing committees to consider when developing nurse staffing plans and required the Oregon Health Authority (OHA) to audit hospitals to determine compliance with staffing plan requirement. In 2023, the legislature passed House Bill 2697 modifying the hospital nurse staffing committee and plan requirements and imposing civil penalties for staffing plan violations beginning June 1, 2025.

House Bill 3294 requires the Oregon Health Authority (OHA) to study the effects of House Bill 2697 (2023) and report to the Legislative Assembly by September 15, 2026.
