

# SUBCOMMITTEE RECOMMENDATION

## HB 2929

### Relating to substance use

---

To:	Ways and Means Full Committee
From:	Human Services Subcommittee
Carrier:	Representative Valderrama

---

HB 2929 makes several modifications to the Alcohol and Drug Policy Commission including expanded fiscal and contractual powers, changes in membership composition and representation, and renaming and modifying the required content and purpose of statutory plans.

Although the fiscal impact statement prepared for the measure outlined the costs associated with three additional positions to implement the changes, those positions are duplicative to positions that are authorized to be established in the primary budget bill for the Oregon Health Authority, HB 5025.

The Human Services Subcommittee recommends HB 2929 be reported out do pass.
