

SUBCOMMITTEE RECOMMENDATION

SB 1047

Relating to access to resources for development in Curry County

To:	Ways and Means Full Committee
From:	Capital Construction Subcommittee
Carrier:	Senator Girod

SB 1047 expedites property development in a specified area of Curry County.

The measure directs Curry County to expedite permitting and licensing for the development of parcels larger than 125 acres located north of Port Orford, west of U.S. Highway 101, and south of the Elk River. The measure also requires the Water Resources Department to expedite the review of applications for the development and use of groundwater, including storage, within the same geographic boundaries.

The amendment removes an appropriation of \$55,000 General Fund as the measure has a minimal fiscal impact.

The Capital Construction Subcommittee recommends SB 1047 be amended by the –A8 amendment and be reported out do pass, as amended.
