

Colleagues,

This flowchart has been created to illustrate the intent of HB 2688, including the clear process found in the language of the bill for determining the scope of what is covered by the bill. We must ensure that the Bureau of Labor and Industry rulemaking for this bill follows this clear intent of the legislature to help provide certainty in understanding what work is and is not covered. This certainty will benefit public agencies, employers, and employees alike.

From the office of Senator Kathleen Taylor

## HB 2688 – When Does the Bill Apply?

<b>Example</b>	<b>Covered?</b>	<b>Why (which test does/might it fail)?</b>
Playground equipment for a new park	No	1, 4, 5
