

Open Government Impact Statement

83rd Oregon Legislative Assembly
2025 Regular Session

Measure: SB 1020

Only impacts on Original or Engrossed
Versions are Considered Official

Prepared by: Dexter A. Johnson
Date: 2/12/2025

SUMMARY

Digest: This Act says that inhalant delivery systems must have a refund value. Makers of those systems must carry out a plan to collect and dispose of them. (Flesch Readability Score: 67.7).

Requires producers of inhalant delivery systems to join an inhalant delivery system producer responsibility organization and implement an inhalant delivery system producer responsibility program for the collection and disposal of inhalant delivery systems.

Establishes a refund value for inhalant delivery systems sold in this state.

Directs the Department of Environmental Quality to administer and enforce the requirements of the Act. Establishes the Inhalant Delivery System Producer Responsibility Fund.

Takes effect on the 91st day following adjournment sine die.

OPEN GOVERNMENT IMPACT

Legislative Counsel has not adopted standards for drafting measures that establish exemptions from disclosure of public records.

This measure exempts from public disclosure information or records submitted to the Department of Environmental Quality by a producer or inhalant delivery system producer responsibility organization if the producer or inhalant delivery system producer responsibility organization submitting the information or records requests the information or records be confidential, and the department determines that the harm in disclosure outweighs the public interest in disclosure. This measure does not exempt a summary of information or aggregated data if it does not directly or indirectly identify confidential information.

If those public records that could be subject to public disclosure were instead subject to mandatory disclosure under public records law, the public could gain information relating to records and information submitted by a producer or inhalant delivery system producer responsibility organization including records concerning the inhalant delivery system producer responsibility program plan for the collection and disposal of inhalant delivery systems and the annual report submitted to the department regarding the development, implementation and operation of the organization's inhalant delivery system producer responsibility program.
