OPEN GOVERNMENT IMPACT

Legislative Counsel has not adopted standards for drafting measures that establish exemptions from disclosure of public records.

This measure exempts from public disclosure any contract, proposed contract or related documentation in the possession of a post-secondary institution of education that relates to a student athlete's exercise of economic rights.

If those public records that could become subject to public disclosure were instead subject to mandatory exposure under public records law, the public could gain access to contracts, proposed contracts and related documentation in the possession of a post-secondary institution of education that relates to a student athlete's exercise of economic rights.
