**BACKGROUND:**

In 2020, Oregon voters passed Measure 110 ("Drug Addiction Treatment and Recovery Act"), approving two shifts in how the state deals with the use of illegal drugs. First, the measure reduces penalties for drug possession, making Oregon the first state to decriminalize the personal possession of illegal drugs. Secondly, the savings achieved from the cost of enforcing criminal drug possession penalties are combined with marijuana sales revenue to fund a new drug addiction treatment and recovery grant program. Senate Bill 755 (2021) modified some of the requirements of Measure 110. That measure also established Behavioral Health Resource Networks (BHRNs), which are groups of organizations that partner to provide substance use services free of charge to individuals seeking care. The measure requires a BHRN to be established in each county and tribal area in the state and establishes a process for grants to be awarded via the Oversight and Accountability Council. According to the Oregon Health Authority, there are currently 42 BHRNs and 151 BHRN partners.
