BACKGROUND:

Regional Health Equity Coalitions (RHECs) are community-led, cross-sector groups organized regionally to identify and address health equity issues. RHECs work with communities to identify long-term strategies to increase health equity for communities of color, Tribal communities, immigrants, refugees, migrant and seasonal farmworkers, individuals and families with low income, people with disabilities, and LGBTQ communities, with communities of color as the leading priority. The RHEC model was created in 2011 by the Office of Equity and Inclusion at the Oregon Health Authority (OHA) ([Regional Health Equity Coalitions](#) and [RHEC OARL](#)).

Currently, RHECs represent 21 counties, including

- Eastern Oregon Health Equity Alliance (Cohort 1 Malheur and Umatilla Counties, Cohort 2 Morrow and Union Counties)
- Linn Benton Lincoln Health Equity Alliance (Linn, Benton, and Lincoln Counties)
- Mid-Columbia Health Equity Advocates (Hood River and Wasco Counties)
