⁽¹⁾ Includes adjustments through January 2025

* Excludes Capital Construction expenditures

Summary of Revenue Changes

The Psychiatric Security Review Board (PSRB) is supported entirely by General Fund resources.

Summary of Human Services Subcommittee Action

PSRB works to protect the public primarily by supervising people who are found guilty except for insanity in criminal defense proceedings. PSRB partners with other agencies to ensure people under its jurisdiction receive the necessary services and support to reduce the risk of future dangerous behavior. Treatment decisions for adults and juveniles under PSRB's supervision are made by a five-member board with expertise related to each age group. PSRB monitors individuals under its jurisdiction, ensures protection for the public, holds hearings, helps clients safely reintegrate into communities, and communicates with crime victims. PSRB's functions have expanded several times since its inception in 1977 and includes hearings for individuals who petition to have their right to own a firearm restored after previously being barred from purchasing or possessing a firearm due to a mental health determination, placement, and supervision of civil commitments made by a district attorney petition, and a risk-based evaluation of sex offenders.

The Subcommittee recommended a budget for PSRB of \$5,476,941 General Fund and 13 positions (13.00 FTE). The budget increases General Fund by 17.2% over the 2023-25 legislatively approved budget. The Subcommittee recommended the following package:

Package 100: Case Management System Replacement. This package includes a one-time \$319,500 General Fund appropriation for planning and analysis to support the replacement of the agency's legacy case management system. This modernization effort is intended to result in a robust, compliant, and efficient case management system that upholds the PSRB's public safety mission. The funding is provided for

professional service contracts for a business analyst position to provide detailed planning and discovery efforts that will define PSRB's operational requirements and assess market options, and for project management to oversee procurement execution, system implementation planning, vendor coordination, and interagency governance to ensure successful delivery of the new CMS.

Summary of Performance Measure Action
