WHAT THE MEASURE DOES:

The measure extends the sunset date for fees related to the High Hazard Train Route Oil Spill Preparedness Fund and the Oil and Hazardous Material Transportation by Rail Action Fund to July 1, 2029. It redefines definition of "oil" and "tank railroad car" with regard to high hazard train routes.

ISSUES DISCUSSED:

- The fiscal impact of the measure

EFFECT OF AMENDMENT:

No amendment.

BACKGROUND:

House Bill 3225 (2015) required the State Fire Marshall to adopt a plan for coordinated response to an oil or hazardous material spill or release that could occur during rail transport and established the Oil and Hazardous Material Transportation by Rail Action Fund (ORS 453.394).

House Bill 2209 (2019) gave the Department of Environmental Quality the authority to create rules requiring railroads transporting oil to prepare spill response plans and established the High Hazard Train Route Oil Spill Preparedness Fund (ORS 468B.435). The rules apply to railroads considered to be "high hazard rail" because they are within a quarter mile of waters of the state and have trains traveling over them with more than 20 tank cars loaded with oil in a continuous block or 35 tank cars loaded with oil distributed through the length of a train.
