Fiscal Analysis

ORS 291.055(1)(e) stipulates that all new state agency fees or fee increases adopted between the date of adjournment sine die of a regular session of the Legislative Assembly, and the date of adjournment sine die of the next regular session of the Legislative Assembly, are rescinded upon adjournment sine die of the next regular session of the Legislative Assembly unless the fee is authorized by enabling legislation.

Several sections in ORS Chapter 684 establish the Board's authority to impose and collect certain fees related to licensing and regulation of chiropractic physicians and chiropractic assistants. OBCE establishes fees through its rulemaking authority. The Board's 2023-25 legislatively adopted budget included a 20% fee increase to all license types. However, that 20% fee increase did not provide sufficient revenues to sustain agency operations. As a result, OBCE adopted a 30% fee increase (though the application fee for chiropractic physicians was increased by more than 30%), and established new fees, which went into effect in November 2024. The 30% fee increase is projected to generate an additional \$636,898 of Other Funds fee revenue, which will sustain agency operations through the 2025-27 biennium. However, without an overall increase in licensees, the Board will likely need another fee increase in the 2027-29 biennium.
