**SECTION 1.** ORS 339.345 is amended to read:

*“339.345. [Each school campus in a school district, private school campus and public charter school campus shall have on the premises at least one automated external defibrillator.]*

**“(1) As used in this section:**

**“(a) ‘Athletic venue’ means any location in a building or on the grounds of any kindergarten through grade 12 public or private school where athletic practices or competitions are held for school-sponsored events or for which students are in attendance.**

**“(b) ‘Coach’ has the meaning given that term in ORS 336.485.**

**“(c) ‘School’ means the buildings and grounds of any kindergarten through grade 12 public or private school, excluding athletic venues.**

**“(2) The governing body for a school shall ensure that:**

**“(a) Automated external defibrillators are located:**

**“(A) At each school at locations that are selected, to the greatest extent practicable, in accordance with guidelines established by a national organization focused on emergency cardiovascular care; and**

**“(B) At each athletic venue.**

**“(b) The automated external defibrillator location is clearly identified and is unlocked and accessible:**

**“(A) For automated external defibrillators located in a school, when students are at the school; and**

**“(B) For automated external defibrillators located at an athletic venue, when students are at the athletic venue for athletic practices or competitions.**

**“(c) Automated external defibrillators are tested and maintained as provided by the manufacturer’s guidelines.**

**“(d) Every coach is trained in the use of automated external defibrillators.**

**“(e) The ratio of the number of students to the number of staff members who are trained in the use of automated external defibrillators is the same as the ratio prescribed for staff members who hold a first aid card under ORS 342.664.**

**“(3) Training required under subsection (2) of this section must align with guidelines established by a national organization focused on emergency cardiovascular care and may be provided as part of first aid training required under ORS 342.664.**

**“(4) Any school plan for responding to medical emergencies must include:**

**“(a) A plan for cardiac emergency responses, including the use of automated external**

1   defibrillators, that aligns with core elements established by a national organization focused  
2   on emergency cardiovascular care; and

3       “(b) Identification of the locations of automated external defibrillators, which must be  
4   shared with emergency medical services providers.”.
