If the department determines that the application is incomplete or defective or that not all fees have been paid, the department shall return the fees paid and the application.

(2) Upon determining that an application contains the information listed under ORS 537.140 (1) and is complete and not defective, the department shall indorse on the application the date upon which the application was received at the department, which shall be the priority date for any water right issued in response to the application. All applications that comply with the provisions of law shall be recorded in a suitable book kept for that purpose.

(3) If an application is complete and not defective, the department shall determine whether the proposed use is prohibited by ORS chapter 538. (c) Any other issue the department identifies as a result of the initial review that may preclude approval of or restrict the proposed use.

(5) Upon completion of the initial review and no later than 30 days after determining an application to be complete and not defective as described in subsection (1) of this section, the department shall notify the applicant of its preliminary determinations and allow the applicant 14 days from the date of mailing within which to notify the department to stop processing the application or to proceed with the application. 537.610. (1) The Water Resources Commission shall accept all registration statements referred to in ORS 537.605 completed and returned to the commission in proper form, endorse on the registration statement the date of the return and record each statement. Upon recording the statement, the commission shall issue to the registrant a certificate as evidence that the registration is completed.

(2) The issuance of the certificate of registration serves as prima facie evidence that the registrant is entitled to a right to appropriate ground water and apply it to beneficial use to the extent and in the manner disclosed in the recorded registration statement and in the certificate of registration.

(3) A certificate of registration issued under this section may not be construed as a final determination of any matter stated in the certificate of registration. The right of the registrant to appropriate ground water under a certificate of registration is subject to determination under ORS 537.670 to 537.695, and is not final or conclusive until so determined and a ground water right certificate issued. A right to appropriate ground water under a certificate of registration has a tenta-

1 tive priority from the date when the construction of the well was begun.

2 (4) The commission shall adopt by rule the process and standards by which the commission will  
3 recognize changes in the place of use, type of use or point of appropriation for claims to appropriate  
4 ground water registered under this section. The commission shall adopt fees not to exceed [~~\$1,820~~  
5 **\$2,730**] for actions taken to modify a certificate of registration.

10 application contains the information listed under ORS 537.615 (2) and is complete and not defective,  
11 including the payment of all fees required under ORS 537.615 (5). If the department determines that  
12 the application is incomplete or defective or that not all fees have been paid, the department shall  
13 return the fees paid and the application to the applicant to remedy the defect. If an application is  
14 complete and not defective, the department shall indorse on the application the date upon which the  
15 application was received at the department, which shall be the priority date for any water right is-  
16 sued in response to the application.

17 (3) Upon determining that an application is complete and not defective, the department shall  
18 determine whether the proposed use is prohibited by statute. If the proposed use is prohibited by  
19 statute, the department shall reject the application and return all fees to the applicant with an ex-  
20 planation of the statutory prohibition.

21 (4) If the proposed use is not prohibited by statute, the department shall undertake an initial  
22 review of the application and make a preliminary determination of:

23 (a) Whether the proposed use is restricted or limited by statute or rule or because the proposed  
24 use is located within a designated critical ground water area;

25 (b) The extent to which water is available from the proposed source during the times and in the  
26 amounts requested; and

27 (c) Any other issue the department identifies as a result of the initial review that may preclude  
28 approval of or restrict the proposed use.

29 (5) Upon completion of the initial review and no later than 30 days after determining an appli-  
30 cation to be complete and not defective as described in subsection (2) of this section, the department  
31 shall notify the applicant of its preliminary determinations and allow the applicant 14 days from the  
32 date of mailing within which to notify the department to stop processing the application or to pro-  
33 ceed with the application. If the applicant notifies the department to stop processing the application,  
34 the department shall return the application and all fees paid in excess of [~~\$310~~] **\$465**. If the depart-  
35 ment receives no timely response from the applicant, the department shall proceed with the appli-  
36 cation.

37 (6) Within seven days after proceeding with the application under subsection (5) of this section,  
38 the department shall give public notice of the application in the weekly notice published by the de-  
39 partment. The notice shall include a request for comments on the application and information per-  
40 taining to how an interested person may obtain future notices about the application and a copy of  
41 the proposed final order.

42 (7) Within 30 days after the public notice under subsection (6) of this section, any person inter-  
43 ested in the application shall submit written comments to the department. Any person who asks to  
44 receive a copy of the department's proposed final order shall submit to the department the fee re-

(3) If the registration statement shows that the water right was initiated by making application for a permit under the provisions of ORS chapter 537, the owner or registrant shall be given credit for the money paid as examination and recording fees. A credit under this subsection shall be allowed only if the application under ORS chapter 537 was for a permit to appropriate water to be applied to the same parcel of land or for the same use as set forth in the registration statement.

(4) All fees paid under this section shall be deposited into the General Fund of the State Treasury and credited to an account of the Water Resources Department. The fees shall be used to pay for the expenses of the department to:

(a) Register claims to undetermined vested rights or federal reserved rights under ORS 539.230 and 539.240; and

(b) Determine claims filed or registered under ORS 539.230 and 539.240.

If the federal government is determined to be immune from the payment of such fees, the director may elect to accept a federal claim for filing without the accompanying fees.

**SECTION 6. If this 2025 Act becomes law after July 1, 2025, the Legislative Assembly intends that this 2025 Act shall apply retroactively to July 1, 2025.
