

## Enrolled House Bill 2947

Sponsored by Representative NERON, Senator SOLLMAN; Representatives ANDERSEN, GAMBA, HELM, MCDONALD, Senators GOLDEN, PATTERSON (Presession filed.)

CHAPTER .....

AN ACT

Relating to a study of PFAS in biosolids applied to land; and declaring an emergency.

**Be It Enacted by the People of the State of Oregon:**

**SECTION 1.** (1) The Oregon State University Extension Service and the College of Agricultural Sciences of Oregon State University shall conduct a statewide study to better understand the occurrence and distribution of perfluoroalkyl and polyfluoroalkyl substances (PFAS) found in biosolids applied to agricultural fields that do not produce crops intended for human consumption.

(2) In conducting the study under this section, the extension service and the college shall collaborate with the Department of Environmental Quality and Oregon wastewater service providers to:

(a) Identify and quantify PFAS concentrations in selected biosolids from wastewater treatment facilities in this state;

(b) Identify and quantify PFAS concentrations in the soil profiles of selected agricultural fields that do not produce crops intended for human consumption, on which biosolids analyzed in paragraph (a) of this subsection have been applied to land as a soil amendment, and in adjacent agricultural fields without a history of biosolid application;

(c) Utilizing the data collected under paragraphs (a) and (b) of this subsection, determine the quantities of PFAS retained within and leached from soil profiles; and

(d) Identify and quantify PFAS concentrations in crops not intended for human consumption grown in agricultural fields analyzed under paragraph (b) of this subsection.

(3) Participation in the study by wastewater treatment service providers, farmers, land owners or land managers is voluntary.

(4) To the greatest extent possible, the extension service and the college shall use data collection methods that do not disclose the precise location of agricultural fields or wastewater treatment facilities or identify the owners of agricultural fields or wastewater treatment facilities that are the subjects of the study. In the reports submitted under subsection (5) of this section, the extension service and the college shall present summarized information or aggregated data that does not directly identify the location of agricultural fields or wastewater treatment facilities or identify the owners of agricultural fields or wastewater treatment facilities.

(5) The extension service and the college shall submit to the interim committees of the Legislative Assembly related to agriculture, in the manner provided by ORS 192.245:

(a) A progress report on the study conducted under this section, no later than December 15, 2026; and

(b) A final report on the study conducted under this section, no later than September 1, 2028. The final report shall include, but need not be limited to:

(A) PFAS concentrations in biosolids;

(B) PFAS concentrations in background and biosolid-amended soil horizons;

(C) PFAS concentrations in crops grown on biosolid-amended soils; and

(D) Comparisons to published literature for context and interpretation.

**SECTION 2.** In addition to and not in lieu of any other appropriation, there is appropriated to the Higher Education Coordinating Commission, for the biennium beginning July 1, 2025, out of the General Fund, the amount of \$410,000, for distribution to Oregon State University to carry out the study under section 1 of this 2025 Act.

**SECTION 3.** Section 1 of this 2025 Act is repealed on January 2, 2029.

**SECTION 4.** This 2025 Act being necessary for the immediate preservation of the public peace, health and safety, an emergency is declared to exist, and this 2025 Act takes effect on its passage.

Passed by House June 13, 2025

.....  
Timothy G. Sekerak, Chief Clerk of House

.....  
Julie Fahey, Speaker of House

Passed by Senate June 19, 2025

.....  
Rob Wagner, President of Senate
